

# Training

In the use of the

# Sapiential Tarot

October 2-4

## Session One

(Date of Session Two is yet to be determined)

This is an invitation to consider an intensive two-session training program in the use of the Sapiential Tarot. Spiritual Guidance is a perennial necessity for every human being who walks the earth and begins his or her Journey of Eternal Return. In a time of crisis and unveiling it is even more crucial that we receive the guidance we need, from Above. There is the sense that the use of the Sapiential Tarot provides such guidance.

This new deck of the Tarot, consisting of 80 cards is designed to unveil the teachings of Perennial Wisdom as we make our return Journey. More explicitly, it is an attempt to contact and receive guidance from the unique Angel of each individual's being.

The traditional use of the original Tarot, coming from its sources in the tradition of Hermeticism, was through a process of divination, which we will also use in seeking this guidance, but done in a manner that sets it in contemplative and liturgical space.

If you are interested and drawn to exploring this method, the training will take place in two initial full weekend sessions using the Zoom format, with the possibility of adding other sessions as we learn and practice the method. Here are the practical goals we are setting ourselves:

- Learn the meaning of each card in sets
- Understand the practice of divination as “synchronicity”
- Learn the method and protocols of using the Celtic Cross Spread
- Witness and then Practice a Reading in real time
- Group work and team interpretations
- Creation of ritual space
- Case study and personal work between sessions.

There will be a team of presenters and we will work together collaboratively. If you choose to enter the training, it is understood that you will complete two weekend sessions (various “make-up” and continuing education sessions will be offered to accommodate schedules and continue the work). The cost for the two weekend sessions (Friday evening through Sunday noon) is \$300. For any subsequent sessions the cost will be \$75. A certificate will be offered for those wishing to attain proficiency especially as it relates to spiritual direction. The cost of the course will include a number of items offered freely and others that you will need to purchase or acquire:

1. The set of cards delivered to you electronically included in the cost.
2. A manual of many pages also sent as a PDF included in the cost. Please print the manual.
