

TAROT TUESDAY

*7-9 pm, CT
Zoom Gathering*

This is an experiment. I am going to offer an evening's worth of work on Tuesday, June 29th to whoever would like to attend. It is offered mainly for those who have taken the training in the use of the **Sapiential Tarot**, but is open to anyone for information.

The purpose is to focus on one aspect of the deck, its many meanings, and its use in spiritual guidance and divination from Above (from the Angel). I will focus on the following section this next Tuesday evening:

Cards 1-11
The Sephirot

Please have these cards available for the session. There will be a general presentation on them, and then specific focus on several, their structure in the Tree of Life, and specific meanings. Please consult the Manual ahead of time, read through this section, and write questions that may arise for you.

Use the following link that Sam Roberts will send to you for our gathering. I will open the room 10 minutes before the gathering.
